

utah art education association

#### About this scholarship

The Catherine Ford Art Scholarship was established to help art students in need to help them to attend college. Catherine Ford was the Utah Art Educators of the year and was also a strong advocate for the arts in the state of Utah. She passed away in 2002 at the age of 48. The UAEA established this scholarship in her honor and to help students continue their studies within the arts at the college levels.
